418 Edgar Scott,2021-03-23 418: I Am a Teapot is a near-future dystopian science fiction novel that explores a world where people by choice, birth, or punishment, relinquish the rights to their physical body. Their brains exist in a constantly-connected virtual interface where they enjoy a fantasy world of endless indulgences. However, while their minds have fun, their bodies are controlled by implants doing the filthiest and most dangerous jobs known to humanity. Stripped of their identities, these dredges of society are simply called staff and they are disposable. But what happens when a staff becomes cognizant of its situation and tries to break free? When staff number 418's physical body is broken, he must come to terms with reality, and defend himself in a trial for his life. Will an unlikely friendship save him from permanent retirement?

Barbarians and Romans, A.D. 418-584 Walter Goffart,2020-07-21 Despite intermittent turbulence and destruction, much of the Roman West came under barbarian control in an orderly fashion. Goths, Burgundians, and other aliens were accommodated within the provinces without disrupting the settled population or overturning the patterns of landownership. Walter Goffart examines these arrangements and shows that they were based on the procedures of Roman taxation, rather than on those of military billeting (the so-called hospitalitas system), as has long been thought. Resident proprietors could be left in undisturbed possession of their lands because the proceeds of taxation,rather than land itself, were awarded to the barbarian troops and their leaders.
